SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier
- Trade name: CALCIUM FLUORIDE, SYNTHETIC
- Chemical name: Calcium fluoride
- Molecular formula: CaF2

1.2 Relevant identified uses of the substance or mixture and uses advised against

Uses of the Substance / Mixture
- Metallurgy.
- Glass industry
- Dental application
- Brakes
- Chemical industry
- Food/ feedstuff additives
- Plastics industry
- Manufacture of pulp, paper and paper products
- Electroplating agents
- Pharmaceuticals
- Textile industry
- Water treatment
- photographic chemical

1.3 Details of the supplier of the safety data sheet

Company
SOLVAY FLUORIDES, LLC
3737 Buffalo Speedway,
Suite 800,
Houston, TX 77098
USA
Tel: 800-515-6065

1.4 Emergency telephone

FOR EMERGENCIES INVOLVING A SPILL, LEAK, FIRE, EXPOSURE OR ACCIDENT CONTACT: CHEMTREC 800-424-9300 within the United States and Canada, or 703-527-3887 for international collect calls.

SECTION 2: Hazards identification

Although WHMIS has not adopted the environmental portion of the GHS regulations, this document may include information on environmental effects

2.1 Classification of the substance or mixture
- Not classified as hazardous product under the regulation above.

2.2 Label elements

Hazardous Products Regulations (WHMIS 2015)

- Not labelled as hazardous product under the regulation above.
2.3 Other hazards which do not result in classification
- Hazardous decomposition products formed under fire conditions.
- Gaseous hydrogen fluoride (HF).

SECTION 3: Composition/information on ingredients

3.1 Substance

<table>
<thead>
<tr>
<th>Chemical name</th>
<th>Identification number CAS-No.</th>
<th>Concentration [% wt/wt or V/V]</th>
</tr>
</thead>
<tbody>
<tr>
<td>Calcium fluoride (CaF2)</td>
<td>7789-75-5</td>
<td>&gt;= 99 - &lt; 100</td>
</tr>
</tbody>
</table>

3.2 Mixture
Not applicable, this product is a substance.

SECTION 4: First aid measures

4.1 Description of first-aid measures

**In case of inhalation**
- Move to fresh air.
- If symptoms persist, call a physician.

**In case of skin contact**
- Wash off with soap and water.
- Wash contaminated clothing before re-use.
- If symptoms persist, call a physician.

**In case of eye contact**
- Rinse thoroughly with plenty of water, also under the eyelids.
- If eye irritation persists, consult a specialist.

**In case of ingestion**
- Consult a physician.
- If victim is conscious:
  - If swallowed, rinse mouth with water (only if the person is conscious).
- If victim is unconscious:
  - Oxygen or artificial respiration if needed.

4.2 Most important symptoms and effects, both acute and delayed

**In case of inhalation**

**Effects**
- Product dust may be irritating to eyes, skin and respiratory system.
SAFETY DATA SHEET

CALCIUM FLUORIDE, SYNTHETIC

Revision Date 12/19/2017

Effects
- Not a respiratory irritant
- Chronic exposure (to the product) at high concentrations can cause bone fluorosis.

In case of skin contact
Effects
- Prolonged skin contact may cause skin irritation.

In case of eye contact
Effects
- Contact with eyes may cause irritation.

In case of ingestion

Effects
- At high concentrations:
  - Stomach/intestinal disorders

4.3 Indication of any immediate medical attention and special treatment needed

Notes to physician
- If accidentally swallowed obtain immediate medical attention.
- When symptoms persist or in all cases of doubt seek medical advice.

SECTION 5: Firefighting measures

5.1 Extinguishing media

Suitable extinguishing media
- Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

Unsuitable extinguishing media
- None.

5.2 Special hazards arising from the substance or mixture

Specific hazards during fire fighting
- Not combustible.
- The product is not flammable.
- Heating can release hazardous gases.

Hazardous combustion products:
- Hydrogen fluoride

5.3 Advice for firefighters

Special protective equipment for fire-fighters
- In the event of fire, wear self-contained breathing apparatus.
- Fire fighters must wear fire resistant personnel protective equipment.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures
Advice for non-emergency personnel
- Avoid dust formation.

Advice for emergency responders
- Sweep up to prevent slipping hazard.

6.2 Environmental precautions
- The product should not be allowed to enter drains, water courses or the soil.
- In case of accidental release or spill, immediately notify the appropriate authorities if required by Federal, State/Provincial and local laws and regulations.
- Should not be released into the environment.

6.3 Methods and materials for containment and cleaning up
- Sweep up and shovel into suitable containers for disposal.
- Avoid dust formation.
- Keep in properly labeled containers.
- Keep in suitable, closed containers for disposal.
- Treat recovered material as described in the section "Disposal considerations".

6.4 Reference to other sections
- Refer to protective measures listed in sections 7 and 8.

SECTION 7: Handling and storage

7.1 Precautions for safe handling
- Ensure adequate ventilation.
- Keep away from incompatible products
- Keep away from heat and sources of ignition.

Hygiene measures
- When using do not eat, drink or smoke.
- Wash hands before breaks and at the end of workday.
- Handle in accordance with good industrial hygiene and safety practice.

7.2 Conditions for safe storage, including any incompatibilities

Technical measures/Storage conditions
- Store in original container.
- Keep in a well-ventilated place.
- Keep in a dry place.
- Keep container closed.
- Avoid dust formation.
- Refer to protective measures listed in sections 7 and 8.
- Keep away from:
  - Incompatible products

Packaging material

Suitable material
- Paper.
SECTION 8: Exposure controls/personal protection

Introductory Remarks: These recommendations provide general guidance for handling this product. Because specific work environments and material handling practices vary, safety procedures should be developed for each intended application. Assistance with selection, use and maintenance of worker protection equipment is generally available from equipment manufacturers.

8.1 Control parameters

Components with workplace occupational exposure limits

Consult local authorities for acceptable exposure limits.

<table>

Form of exposure: Inhalable fraction

The goal of the TLV®-CS Committee is to recommend TLVs® for all substances for which there is evidence of health effects at airborne concentrations encountered in the workplace. When a sufficient body of evidence exists for a particular substance, a TLV® is established. Thus, by definition the substances covered by this recommendation are those for which little data exist. The recommendation at the end of this Appendix is supplied as a guideline rather than a TLV® because it is not possible to meet the standard level of evidence used to assign a TLV®. In addition, the PNOS TLV® and its predecessors have been misused in the past and applied to any unlisted particles rather than those meeting the criteria listed below. The recommendations in this Appendix apply to particles that: - Do not have an applicable TLV®; - Are insoluble or poorly soluble in water (or, preferably, in aqueous lung fluid if data are available); and - Have low toxicity (i.e. are not cytotoxic, genotoxic or otherwise chemically reactive with lung tissue, and do not emit ionizing radiation, cause immune sensitization, or cause toxic effects other than by inflammation or the mechanism of ‘lung overload’). ACGIH® believes that even biologically inert, insoluble, or poorly soluble particles may have adverse effects and recommends that airborne concentrations should be kept below 3 mg/m³, respirable particles, and 10 mg/m³, inhalable particles, until such time as a TLV® is set for a particular substance.

| Particles not otherwise specified (PNOS)         | TWA        | 3 mg/m³ | American Conference of Governmental Industrial Hygienists |

- Polyethylene

Unsuitable material
- no data available

7.3 Specific end use(s)

- Contact your supplier for additional information

8.2 Exposure controls

Control measures

Engineering measures
- Refer to protective measures listed in sections 7 and 8.
- Provide appropriate exhaust ventilation at places where dust is formed.
- Apply technical measures to comply with the occupational exposure limits.

Individual protection measures

Respiratory protection
- In the case of dust or aerosol formation use respirator with an approved filter.
- Use only respiratory protection that conforms to international/ national standards.
- Use NIOSH approved respiratory protection.

Hand protection
- Wear suitable gloves.
  Suitable material
  - PVC
  - Neoprene
  - Natural Rubber

Eye protection
- Dust proof goggles, if dusty.

Skin and body protection
- Dust impervious protective suit

Hygiene measures
- When using do not eat, drink or smoke.
- Wash hands before breaks and at the end of workday.
- Handle in accordance with good industrial hygiene and safety practice.

SECTION 9: Physical and chemical properties

Physical and Chemical properties here represent typical properties of this product. Contact the business area using the Product information phone number in Section 1 for its exact specifications.

pH ca. 6.0 - 7.0 (0.01 g/l) (68 °F (20 °C))

pKa: Not applicable

Melting point/freezing point
Melting point/range: 2,593 °F (1,423 °C)

Initial boiling point and boiling range
Boiling point/boiling range: 4,532 °F (2,500 °C) (759.81 mmHg (1,013 hPa))

Flash point Not applicable

Evaporation rate (Butylacetate = 1) Not applicable

Flammability (solid, gas) The product is not flammable.

Flammability / Explosive limit Explosiveness: Not explosive

Autoignition temperature Not applicable

Vapor pressure Not applicable

Vapor density Not applicable

Density

Bulk density: 650 - 700 kg/m³

Relative density 3.18

Solubility Water solubility:
0.017 g/l (64 °F (18 °C))

Partition coefficient: n-octanol/water Not applicable, inorganic

Decomposition temperature no data available

Viscosity Viscosity, dynamic: Not applicable

Explosive properties no data available

Oxidizing properties Not considered as oxidizing.

9.2 Other information
no data available

SECTION 10: Stability and reactivity

10.1 Reactivity
- no data available

10.2 Chemical stability
- Stable under recommended storage conditions.

10.3 Possibility of hazardous reactions
- no data available

10.4 Conditions to avoid
- To avoid thermal decomposition, do not overheat.

10.5 Incompatible materials
- Strong acids

10.6 Hazardous decomposition products
- Hydrogen fluoride

SECTION 11: Toxicological information

11.1 Information on toxicological effects

Acute toxicity

Acute oral toxicity
LD50: > 2,000 mg/kg - Rat, female
Method: OECD Test Guideline 423
Not classified as hazardous for acute oral toxicity according to GHS.
No mortality observed at this concentration.
Unpublished internal reports

Acute inhalation toxicity
LC50 - 4 h (Dust): > 5,070 mg/m3 - Rat, male and female
Method: OECD Test Guideline 403
Not classified as hazardous for acute inhalation toxicity according to GHS.
Unpublished internal reports

Acute dermal toxicity
study scientifically unjustified

Acute toxicity (other routes of administration)
no data available

Skin corrosion/irritation
Rabbit
No skin irritation
Method: OECD Test Guideline 404
Unpublished internal reports

Serious eye damage/eye irritation
Rabbit
No eye irritation
Method: OECD Test Guideline 405
Unpublished internal reports
Respiratory or skin sensitization
Local lymph node assay - Mouse
Does not cause skin sensitization.
Method: OECD Test Guideline 429
Unpublished internal reports

Mutagenicity
Genotoxicity in vitro
Ames test
with and without metabolic activation
negative
Method: OECD Test Guideline 471
Unpublished internal reports

Chromosome aberration test in vitro
Strain: Chinese hamster lung cells
with and without metabolic activation
negative
Method: OECD Test Guideline 473
Unpublished internal reports

Gene mutation assays in mammalian cells.
Strain: Chinese hamster lung cells
with and without metabolic activation
negative
Method: OECD Test Guideline 476
Unpublished internal reports

Genotoxicity in vivo
no data available

Carcinogenicity
By analogy
Test substance: Sodium fluoride
No carcinogenic effects have been observed
This product does not contain any ingredient designated as probable or suspected human carcinogens by: ACGIH

Toxicity for reproduction and development
Toxicity to reproduction / fertility
By analogy
The product is not considered to affect fertility., Test substance, Sodium fluoride

Developmental Toxicity/Teratogenicity
By analogy
Test substance, Sodium fluoride, The product is not considered to be toxic for development.
STOT
STOT-single exposure
The substance or mixture is not classified as specific target organ toxicant, single exposure according to GHS criteria.

STOT-repeated exposure
The substance or mixture is not classified as specific target organ toxicant, repeated exposure according to GHS criteria.

By analogy
Inhalation 28-day - Rat, male and female
NOAEC: 7 mg/m³
Test substance: Aluminum fluoride
Method: OECD Test Guideline 412
Unpublished internal reports

Experience with human exposure
no data available

Aspiration toxicity
no data available

SECTION 12: Ecological information

12.1 Toxicity

Aquatic Compartment
Acute toxicity to fish
no data available

Acute toxicity to daphnia and other aquatic invertebrates.
no data available

Toxicity to aquatic plants
no data available

Toxicity to microorganisms
no data available

Chronic toxicity to fish
no data available

Chronic toxicity to daphnia and other aquatic invertebrates.
no data available

Chronic Toxicity to aquatic plants
no data available
12.2 Persistence and degradability

**Abiotic degradation**

**Stability in water**

Water/soil, hydrolyzes, Degradation products: hydrofluoric acid
Water/soil, inert product in normal environmental conditions

**Physical- and photo-chemical elimination**

no data available

**Biodegradation**

**Biodegradability**

The methods for determining biodegradability are not applicable to inorganic substances.

12.3 Bioaccumulative potential

**Partition coefficient: n-octanol/water**

Not applicable, inorganic substance

**Bioconcentration factor (BCF)**

Not applicable, inorganic substance

12.4 Mobility in soil

**Adsorption potential (Koc)**

Water/soil
low solubility and mobility
Soil/sediments
adsorption on mineral and organic soil constituents

**Known distribution to environmental compartments**

no data available

12.5 Results of PBT and vPvB assessment

Not applicable

12.6 Other adverse effects

**Ecotoxicity assessment**

**Acute aquatic toxicity**

No toxicity at the limit of solubility.

**Chronic aquatic toxicity**

No toxicity at the limit of solubility.
SECTION 13: Disposal considerations

13.1 Waste treatment methods

Product Disposal
- In accordance with local and national regulations.
- Can be landfilled, when in compliance with local regulations.

Advice on cleaning and disposal of packaging
- Can be landfilled or incinerated, when in compliance with local regulations.
- Where possible recycling is preferred to disposal or incineration.
- The empty and clean containers are to be reused in conformity with regulations.
- Uncleaned empty packaging
- Dispose of as unused product.

SECTION 14: Transport information

TDG
not regulated

DOT
not regulated

NOM
not regulated

IMDG
not regulated

IATA
not regulated

Note: The above regulatory prescriptions are those valid on the date of publication of this sheet. Given the possible evolution of transportation regulations for hazardous materials, it would be advisable to check their validity with your sales office.
SECTION 15: Regulatory information

15.1 Notification status

- **TWA**: 8-hour, time-weighted average
- **ACGIH**: American Conference of Governmental Industrial Hygienists
- **OSHA**: Occupational Safety and Health Administration
- **NTP**: National Toxicology Program
- **IARC**: International Agency for Research on Cancer
- **NIOSH**: National Institute for Occupational Safety and Health

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information, and belief at the date of its publication. Such information is only given as a guidance to help the user handle, use, process, store, transport, dispose, and release the product in satisfactory safety conditions and is not to be considered as a warranty or quality specification. It should be used in conjunction with technical sheets but do not replace them. Thus, the information only relates to the designated specific product and may not be applicable if such product is used in combination with other materials or in any other manufacturing process, unless otherwise specifically indicated. It does not release the user from ensuring he is in conformity with all regulations linked to its activity.
